Section B

Q.5) Answer the following in about 150 words each:

10x5=50

(a) Socio-cultural Anthropology and Sociology

Socio-cultural Anthropology and sociology are discipline sharing few similarities and differences.

Differences : Socio-cultural Anthropology vs Sociology

	Socio-cultural Anthropology	sociology
Scope	Social stratification, historical context, institutions etc	Social changes, gender studies, and emerging issues.
Target	studies simple societies	Middle class, modern societies
Methodology	Participant observation given importance	case-studies, questionnaire used majorly.
Comparative studies	Dominant earlier times.	Not so much used.

Similarities

- 1) Both studies societies.
- 2) Many cross-disciplinary subjects, human resources.

For instance, M.N. Srinivas sociologist as well anthropologist.

3) Sociology influencing Socio-cultural Anthropology :- Many sociologist- (en) Durkheim inspiring anthropologist.

4) Anthropology influencing sociology : Culture personality school and studies of Margaret Mead influenced sociologist.

Thus KROEBER called both socio-culture anthropology and sociology Twin sister.

In recent time the comparison lost relevance as inter-disciplinary approach given importance.

Study of social structure. comparative study
