- 2) Hunting: As man become bipedal and had erect posture, he became a specialised hunter as evident from Torralba and Ambrona in Spain
- 3) Social organisation present as evident from remains of ~~4544~~ 13 skull in Hadar by M. Leaky.
- 4) Domestication of use of fire as evident from fossils of i.e. burnt charred bones from Swartkrans.
- 5) Burials with floral offerings found at Teshik Tash cave in Uzbekistan.

Hence, during middle pleistocene culture became central ~~to~~ ~~part~~ ~~is~~ of species life.
