

② Activity theory (Havighurst) : → older people will continue the activity with same energy but now the priorities have changed, they will do it for their grand children.

③ Social clock theory : → Society has fixed certain [social age] for certain socio-cultural activity; like marriage at this & this age.

④ Cultural theory : After earning kama, artha, the people try to find Moksha, meaning of life. It is better realised, when one has the social support, network & family love.

Thus, the theories of ageing focus on the social & biological aspect of human growth & development.
