

5.d) Culture is Superorganic

As per Kroeber, culture is superorganic and moulds itself to the realities of society.

Culture as per Tylor is a complex & whole of beliefs, customs, values, habits and capabilities acquired by a man as a member of society.

It is transmitted across generations and not deliberately planned. Instead it is a sum total of social ethics and values.

then in body

write both view points.

① Culture is super organic

② Culture is not super organic
