1.e) Enculturation

Enculturation is the process of passing down the traits of culture from parent generation to the progeny.

Features

- 1) It happens through socialization.
- 2) Family and one's own society contributes to enculturation (Ex) KIBBUTZ whole community.
- 3) Cultural aspect passed down without much change.
- 4) Enculturation starts at young age.
- 5) Role of external culture negligent.

Relevance

- 1) Integrates the young one's to the society.
- 2) Helps in social interaction and communication.
- 3) Educational purpose.
- 4) Shapes up personality and ideology.
- 5) Cultural preservation.
- 6) Non-material aspects of culture

passed down.

7) Helps in better navigating and understanding of the society.

Recent changes

With the impact of external forces like industrialization, urbanization etc the process of primary socialization taken up by formal organization like school.

This leads to reduced familial contribution in enculturation.
