

(c) "Social Institutions are adaptive in nature." Substantiate. (15 marks)

Mc Iner defines Social Institutions as
'a systematic integration of customs,
dogmas, rituals and procedures'.

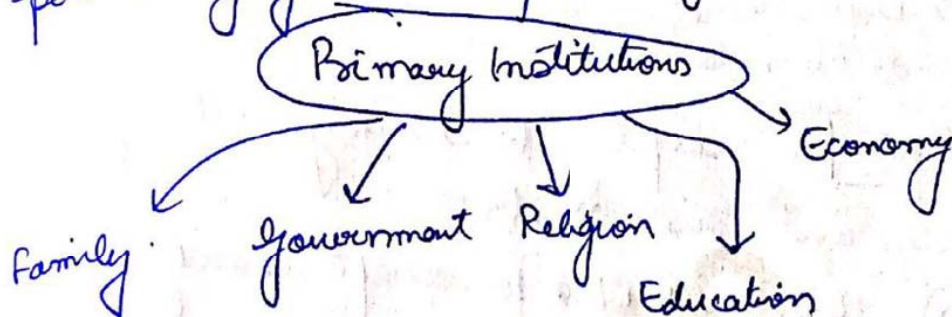

Adaptive Nature: Anthropological approaches

(1) Functionalist approach: Social institutions seek to satisfy needs of an individual and society as a whole as defined by B. Malinowski.

(2) Structure Functionalist: Radcliffe Brown opines that these institutions help to maintain Social Continuity and Functional Unity.

Adaptive Nature : Dynamism of Institutions

Social institutions change themselves as per changing needs of society.

① Family Adapting to contemporary change in Economic (Industrialisation, cash economy, urbanisation).

↳ ex Increasing prevalence of Nuclear families.

↳ ex Abraham Kardiner studied Marquesans of Polynesia and he opined how, due to decrease in food supply, female infanticide, Polyandrous family is now prevalent in society.

(2) Government : adapting to growing demand of autonomy.

- ↳ Local self govt. and federalism.
- ↳ Different kinds like Democratic, authoritarian, etc.

(3) Religion : adapting to changing nature of society and social needs.

- ↳ (ex) Use of UPI to accept charity.
- ↳ (ex) flexibility is increasing within it.

(4) Economy : Reacts to prevalent changes.

- ↳ change in supply of Money.
- ↳ welfare policies.

(5) Education : adapts as per needs and development. (ex) NEP 2020

→ Hence, conforming to Marxian-Harris Cultural Materialism, as per Needs of Infrastructure, institutions adapt & exist.
