(b) Write in brief about the nature of society and culture

McIner in his book Society and The Individual (1914) defines society as the system of usage of authority with mutual aid of other groups to control human behaviours.

EB Tylor in his book 'The Primitive Culture (1871) defines culture as a complex whole consisting of moral, values, customs and other habits learnt by the man as the member of the society.

Relationship between society & culture

1) As per Nadel, culture is a way of life and society consists of individuals which live that way of life.

2) Radcliffe Brown, society consists of

inter-personal and inter group relationship
while culture is overall human behaviour.

3) Kroeber - both culture and society are unique, and culture is specific to a particular society.

Hence we see many cultural variations in society.

For eg: In India, there are 150 major and 1500 minor languages spoken.

4) Levi Strauss society consists of relationships and groupings while culture relates to action and behaviour.

5) Malinowski - culture is a system through which society fulfills its needs. Various institutions in society like marriage, religion follow the process of fulfillment.

6) RM Keesing Both society and culture are on same side but illuminating a different reality.

7) Both society and culture are dynamic, which changes ~~as the~~ ~~are~~ continuously.

Hence, both society and culture are interwoven and interdependent on each other.
