Section B

Q.5) Write notes on the following in about 150 words each:

(a) Kinship and gender role.

(10 Marks)

kinship laws do have contextualisation

As per Ambrose: "Kinship" is the relationship developed on the basis of blood (real or supposed) and marriage.

How Kinship & gender role are related:

① Tracing of a descent in unilineal form results in equal distribution of rights & obligations to Both genders *gender* but further transmission is restricted by the descent rules. *you may add example here*

② The sex of the speaker determines the kinship terminologies which can be used from the other person. *how that determines gender role (add)*

c) Kinship roles in most of the societies ensure greater solidarity with alliance partners along with behaviour of avoidance.

explain gender role

d) Kinship terminologies in some societies ensure "terms" reflect the gender differences prevalent in the society e.g Father & Mother.

Relevance:- Most of the Kinship Studies are gender neutral where in equal importance is given to both side of kin relations and each group has specific role in social solidarity.

modern tech, surgery, AI, changing norms.

Father side = Formal relationship

Mother side = To kin relationship

you may see changes in kin term in homosexual families changing gender norms.

can be important whenever term is used also include 16999 gender.
