(b) Incest taboo is a pre-social social fact. Comment.

(15 marks)

^{taboo}
Incest is a socially forbidden sexual relationship between socially close relatives e.g. Father - Daughter
 Mother - Son

^{pre-social}
How Incest taboo is a social fact :-

⇒ Presence of Incest across the globe; even in pre-industrial societies.

This social fact can be better explained by Levi-Strauss "Alliance" theory where in incest taboo is observed in order

to marry outside one's own social gp; to strengthen affinal relations and increase group solidarity / Kinship ties among different societies.

Explain this theory in detail

Along with Alliance Theory; other theories have discussed origin of

Incest taboo:-

① Family disruption theory by Malinowski:-

Since Husband-wife relation is not compatible with father, mother; son & daughter relationship. Hence; in order to avoid chaos in family; Incest taboo was observed.

not much used

② Theory given by Freud considers tendency of a son to indulge in Incest but not ~~allowed~~ carried due to fear of

Show how Incest taboo acts as a positive force to create relations outside group family and led to creation of society

Elders. When son becomes adult, he doesn't allow what wasn't allowed for him, resulting in Incest Taboo.

origin of Incest as a taboo is still
debatable since :-

Primitive man didn't have knowledge of genes to prevent consanguineous inbreeding.

- Prevalence of Incest among Royal Egyptian families.

From above discussion's, we can conclude although origin of Incest as a taboo is debatable but it is a positive social fact for greater genetic variability and social solidarity among mankind.
