(e) Economic transactions related to marriage.

(10 Marks)

All the transactions of Goods and services ^{between} ~~that takes place during, before or a~~ the families ^{and kins} of bride and the groom that takes place during, before or after the marriage can be termed as Marriage payments.

There are various types of Transaction related to Marriage :-

① Bride Price → kins of Groom pay an amount to the family/kins of the bride.

According to Dr. Levi Strauss, it is a type of Generalised Reciprocity in which payment is made for the labour of bride that will be lost post marriage. Also for the children of the bride as well as sexual rights of Groom with the bride.

eg → (New tribe in Africa gives Cattle as Bride Price)

② Bride Service → when the kins are not able to pay the Bride price, the Groom/any of his close kins ~~serve~~ ^{serve} in the family/kins of bride as in lieu of Bride payment.

(Don't Write

It is for the same reason as of Bride price.

- ③ Downy → It is a type of negative reciprocity.
As ~~money~~ payment is done by the bride's family to the groom's family.
However, in the larger perspective it is considered as Generalised reciprocity as the Groom's family will have to give dowry when they will provide their daughters.
Eg. Hindu families in India

good answer

- ④ Gift exchange → Exchange of Gifts between the families of Bride & the groom

- ⑤ Sister exchange → It involves exchange of daughters of ~~one~~ ^{both} families.

Try to bring current affairs

Marriage Payments are found in almost all societies around the world.
