(e) Economic transactions related to marriage.

(10 Marks)

Marriage also has many economic transactions occurring with it which are called marriage payments.

Marriage payment	Groom side	Bride's side
Bride Price		
Dowry		
Suitor service		
Gift exchange		

① Bride Price : The groom's side pays compensation to bride's side due to loss of work provided by bride in bride's family

② Dowry: The groom's side receives both wealth and bride from bride's family. This is one of the most exploitative forms of marriage payments.

③ Suitor service: The groom goes to bride's home and renders service in return for the bride.

④ Gift exchange: Both the sides exchange gifts at the time of marriage.

Thus, various marriage payments accompany marriage thus bringing out German saying—that marriage is 'groom marrying bride, farms marrying farms, vineyards marrying vineyards'.
