(c) Division of Labour.

(10 Marks)

"Division of Labour" is one of the major principles or factor in institution of marriage.

Now it is whole culture related phenomenon

⇒ Division of Labour ensures greater economic specialization and greater interdependence between the spouses; thereby increasing social solidarity via the institution of marriage.

mainly related to economy

explain Division of Labour

e.g. Agriculture

sex and specialisation based

→ Men :- clearing; sowing & Harvesting of field.

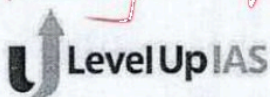

→ Women :- Storage activities; watering activities.

specialisation
fewer examples of different societies under these heads.

Fishing

→ Men :- carry expeditions to catch fish in waters.

add case study of Margaret

(Don't Write anything in this Area)

→ women: Drying, sorting & storing of fishes.

In certain societies; certain works are only carried by men & women (proper division)

e.g. In Bantu people; cattle market is only regulated by ~~women~~ Men.

✓ In Tiv of Nigeria; women are the sellers & men are buyers.

Such "division" in society^{although} ensures greater interdependence; but labour of women in today's society is generally ~~not~~ valued & given no remuneration.

e.g. NO value for Care Economy & 80% time in care work.

③ Relevance :- Investment in care infrastructure needs to be carried for better gender equality.
