(e) Problems of Hunter gatherers in India.

(10 Marks)

"Hunter gatherers" are subsistence societies where in collection & consumption of food are taken in quick succession.

- Such tribes are egalitarian in nature.
- Mostly nomadic in nature.
- Higher dependence on forest areas.
- lower population density.

e.g. Kaura in Nilgiris.

Chenchus in Nallamala Hills.

Problems of Hunter gatherers in India:-

- Establishment of Protected Areas & National Parks has resulted in their displacement.
