(e) Problems of Hunter gatherers in India.

(10 Marks)

Hunter - Gatherers are the simple societies which get their food from hunting game and collection of food items (fruits, seeds, roots) etc. from the forest.

Problems of H/G in India →

① Globalization → due to Globalization, market forces are entering into the tribal societies. Their lands are being taken by the state and sold to MNCs
for example → Acquisition of land in Niyamgiri hills by vedanta co. { Danoria khond, Khutia, etc live here }.

② destruction of forests

due to entering of Modern economies, the forests of Tribals are being destroyed.

Impact

→ Reduction in Game.

→ Reduction in fruits, seeds, roots, etc.

give example of hunting & gathering community affected with this

(Don't Write
anything in this Area)

3) Lack of alternative livelihoods → due to lack of education, they are not suitable for other jobs.

for ex: Mankadia → removed from Simplipal → Given land for cultivation
Tribe tiger reserve

do not know cultivation
← Poverty, Indebtedness, food insecurity
← Suicides are increasing.

4) Low Socio-economic Indicators →

High poverty and indebtedness { sahariga in MP }
High Maternal Mortality rate & IMR { Bonde in Orissa, etc }

5) Loss of kinship ties due to relocation.

Way ahead → Need to restrict MNCs in tribal lands
→ Need to stop land alienation.
→ Proper implementation of FRA PBSA, required.
