- (b) Discuss the characteristics of tribal economy. Also discuss typology of tribal economy in India by L.P. Vidyarthi and Majumdar. (15 marks)

The pioneering work of Dr. Malinowski in Trobriand Islands attracted the attention of Anthropologists in studying tribal economies.

According to Dr. Karl Polanyi in his book "the Great Transformation", Tribal economy is based on their social relationships.

Characteristics of Tribal economy

① Production → It is primary driven by primary production activities. Various production activities include Hunting/Gathering, fishing, Swiddenery, Horticulture & agriculture.

② Tribal economy is embedded in their social relationships. For them maintaining strong kinship bonds (eg. Kula Ring), and social order (eg. Pottalcha) is more important than profit Maximisation.

(Don't Write anything in this Area)

③ Distribution & Exchange → primarily reciprocity and redistribution are modes of exchange. However due to penetration of modern economy in tribal economy, Market Exchange is also happening.

④ Ownership → Collective ownership based on kinship. They hold traditional rights over their lands.

⑤ Trade → Barter is the only ^{known} trade in tribal economy. However with Globalization other complex trading mechanism are also coming. Eg → e-commerce platform & Changpos selling pashmina.

- Characteristics
- ① Simple Tech.
 - ② Production for Consumption
 - ③ Absence of Regular Markets
 - ④ No currency
 - ⑤ No specialists
 - ⑥ Relative Barter - new
 - ⑦ Community notion of property
 - ⑧ Rules & inheritance etc...
