

Division of Labour.

(10 Marks)

Division of labour refers to allocation of certain functions to certain groups in an Economic System (Ember & Ember).

Division of Labour.

Age based division

- Labour allocation is done as per age.
- found in agriculture or Pastoral Simple Society.

ex) Agricultural society of ivory coast, children take care of smaller babies, adult males & female produce crops.

(Don't Wt anything)

Gender Based Division

- ↳ Males and females get different allocations
- ↳ found in Hunter Gatherers: Ex: !Kung of Kalahari, Males hunt while Females collect food. (Biological differences)
- ↳ Childcare differences: Females are usually kept away from economic task for the expense of child care function.

Specialisation → found in complex societies.
↳ Based on degree, expense, technology.

Example Division of labour found in Arapesh, Mundugumans, Tchambuli as studied by Margaret Mead.

→ Such strict division of labour in recent scenario is vanishing with females & males taking similar economic activities.
