

Since the Australopithecus and to subsequent Homo Sapiens Sapiens, division of labour has been there. Louis Leakey observed this in Australopithecus.

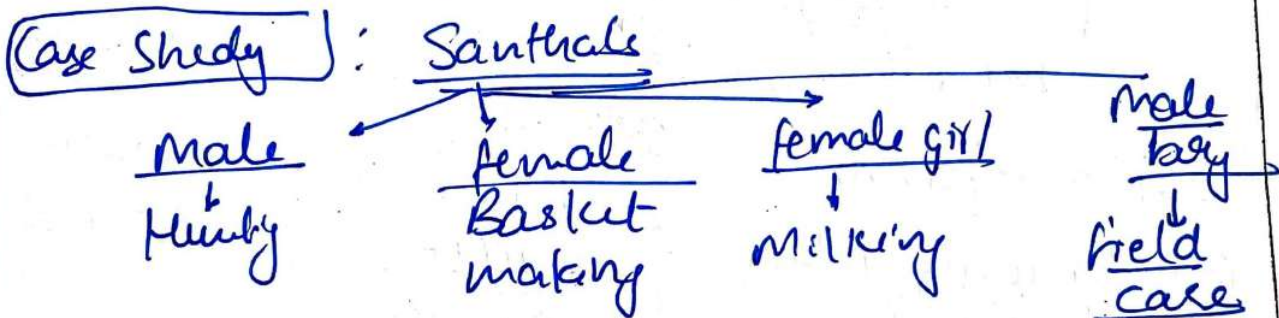

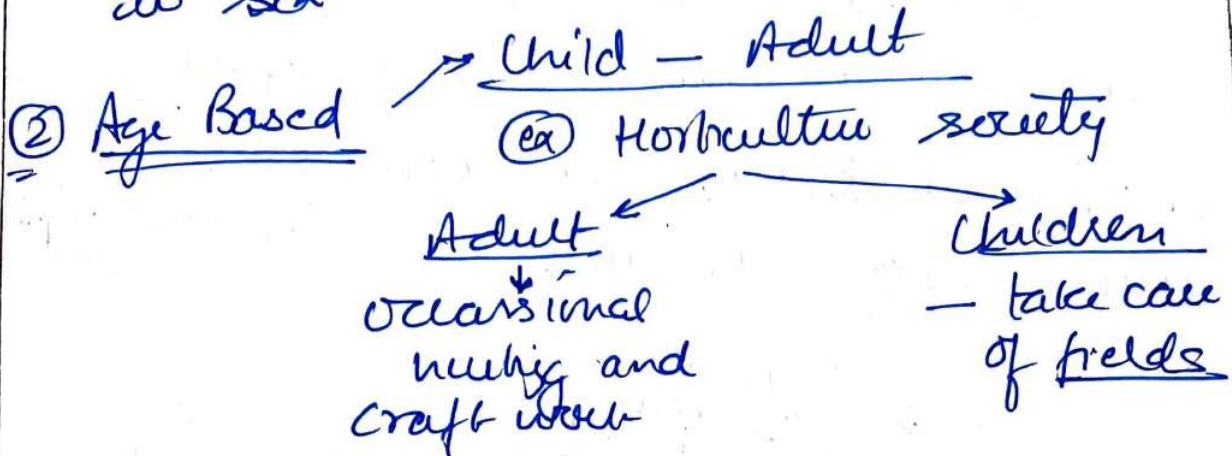

① Sex based @ Murdock believes biological determinism played role.
 Male → hunting
 Female → gathering

② → Loss of female → more threat to survival than loss of male so male in hunting.

- ① As per Merton - in simple societies
 (ex) Bushman - division of labour tied to sex

- ③ Specialisation - modern day economy
- "Durkheim in his book 'Division of labour' called this as essence for 'organic solidarity'"
- (ex) Tailor - stitch clothes
Army - fighting.

Thus, Division of labour ensured social order maintenance.
