(d) Social stratification among Indian society

Social stratification refers to a system in which individuals are ranked according to class, status, & power.

- Social stratification varies from place to place. For eg: caste system in India while class system in developed countries.

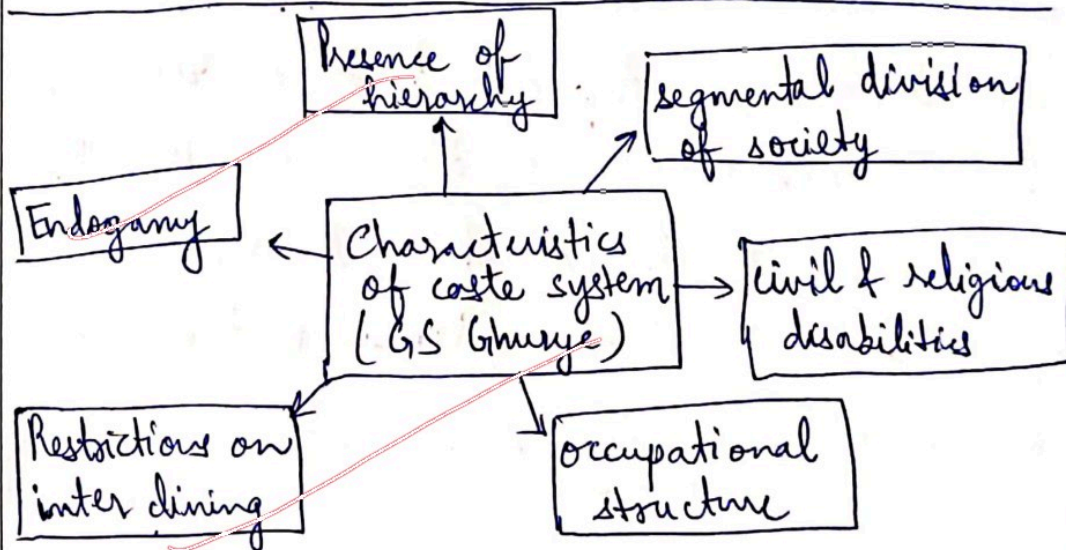

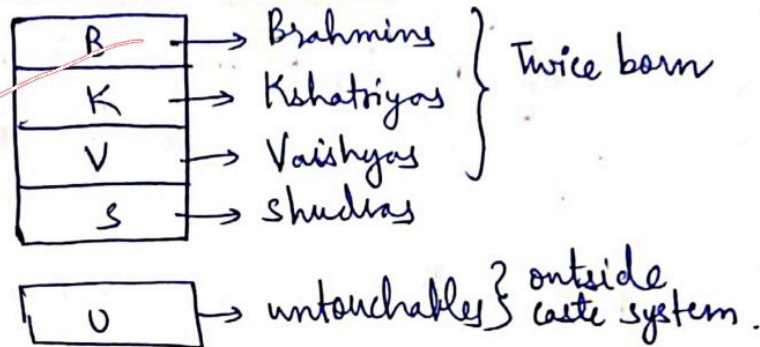

add any theoretical perspectives too

Social stratification in India

1) Caste system: It consists of endogamous group whose membership is ascribed by birth.

However, even after 73 yrs of independence, prevalence of untouchability is seen in India
