

(b) Animism

The concept of Animism was given by EB Tylor in his book 'The Primitive Culture' (1871)

Key concepts

show animology
in gen.

- 1) He defined animism as the belief in supernatural power
- 2) He argued that animism emerged through echoes and dreams in simple societies.
The distinction between inner soul and external soul gave rise to ~~animism~~ animism.
- 3) Tylor believed that since there can be different spirits in human dreams, hence animism must have given rise to polytheism which ultimately resulted in monotheism.

Evolutionary scheme
of religion by
EB Tylor.

Criticism

- 1) He didn't conducted fieldwork ~~and~~ and rather relied on secondary sources of data.
- 2) Marslett gave the opposite idea of evolutionary scheme. There is no yardstick to measure who is correct.
- 3) He was criticised for being ethnocentric

Despite criticism, EB Tylor laid the foundation of evolutionary school of thought which led to further research.
