

r.c) Briefly explain the idea of Culture Circle in German school of Diffusionism. Also highlight the contribution made by prominent scholars of this school. (20 marks)

DIFFUSIONISM school of thought arose in opposition to evolutionists who believed in psychic unity of mankind and had not accounted for diffusion.

German school also called MIGRATIONISTS believed in theory of 'culture knots' or 'centres of innovation' where all cultural traits dispersed, diffused due to migration and culture contact.

Concept of Culture Circle:-

Contribution by Major Scholars:-

① NATZEL in 'Anthropology and Geography' concept stated that
