Linguistic Anthropology

Aims to study language as a part of human culture. It is one of the four-fields of anthropology.

Scope of Linguistic Anthropology

① Historical Linguistics : Aims to study the historical development of languages from past languages.

→ Glottochronology

→ Sanskrit study by Max Müller.

② Ethno Linguistic : Study language as part of a cultural context & how does it function in social setting.

→ Chic language study by B. Levy

③ Socio Linguistics : Study how language expression differ among different

social groups based on certain characteristic like gender, caste, clan
eg Japanese female → Oniwa (water)
Males → Mizu (water)

उम्मीदवारों को इस छवि में नहीं लिखना चाहिए
Candidates must not write on this margin

Relevance of linguistic anthropology

- ① Understanding development & evolution of language
 - ② Understand why only humans has capacity of language expression
 - ③ ~~the~~ preserve & document endangered languages eg Dimas language of Assam
 - ④ Understand migration patterns based on linguistic expression
eg Similarity between language of Gypsies of Romania & Indian languages
- Thus, linguistic anthropology enables an holistic study of human culture
