

Q.9) From being the pre-eminent phenomenon integrating the world, globalization now looks like a spent force. Critically Analyze. (10 Marks, 150 Words)

पूर्व-प्रख्यात घटना होने से दुनिया को एकीकृत करने से, वैश्वीकरण अब एक निवृत्त उर्जा दिखता है। आला-चनात्मक विश्लेषण करें। (10 अंक, 150 शब्द)

Globalisation is the integration of the world in social, economic, technological and cultural domains

Phenomenon integrating the world

• In its hey day since 1980s - 1990s it was seen as integrating the world

In recent times there has been a push for 'de-globalisation' because of:

- ① Rise in protectionism (eg. America for Americans)
- ② Trade barriers & Trade wars.

- ③ BREXIT
 ④ Impasse at WTO.
 ⑤ withdrawals from International fora.
 eg. USA from Paris Agreement.

⑥ Travel restrictions
 & vaccine nationalism

However, Globalisation is still a formidable force as:

1. These restrictions mainly tackle the economic dimension, while others like culture is booming. eg. Netflix rise in India
 Adoption of Yoga globally

2. Globalisation cannot be reversed due to the high levels of integration.
 eg. USA would still have to trade to sustain economy.

The solution to the flaws of globalisation that creates inequality is a reformed & compassionate globalisation, as we still need to fight global challenges like the pandemic.
